Imperfect Justice: Prosecuting Casey Anthony
Filled with explosive new information, this is the definitive inside story of the case that captivated the nation and the verdict that no one saw coming.... It was the trial that stunned America, the verdict that shocked us all. On July 5, 2011, nearly three years after her initial arrest, Casey Anthony walked away, virtually scot-free, from one of the most sensational murder trials of all time. She’d been accused of killing her daughter, Caylee, but the trial only left behind more questions: Was she actually innocent? What really happened to Caylee? Was this what justice really looked like? In Imperfect Justice, prosecutor Jeff Ashton, one of the principal players in the case’s drama, sheds light on those questions and much more, telling the behind-the-scenes story of the investigation, the trial, and the now-infamous verdict. Providing an inside account of the case, Ashton, a career prosecutor for the state of Florida, goes where the press and pundits have only speculated, detailing what really happened during the investigation, showing how the prosecution built their case, and explaining how a woman so shrouded in suspicion was proclaimed innocent. Moving beyond the simple explanations, Ashton offers an in-depth look at the complex figure of Casey Anthony, a woman whose lies he spent three years trying to understand. And yet this focus on Casey came with its own risks; here he details how this widespread fixation on Casey - both in the media and in the trial - may have undermined the case itself. As everyone got caught up in the quest to understand the supposed villain, somehow the victim, Caylee, was all but forgotten - not just to the public, but more important, to the jury.Complete with never-before-revealed information about the case and the accused, Ashton examines what the prosecution got right, what they got wrong, and why he remains completely convinced of Casey Anthony’s guilt.

Book Information
Audible Audio Edition
Listening Length: 11 hours and 34 minutes
Program Type: Audiobook
Version: Unabridged
Publisher: HarperAudio
Audible.com Release Date: November 15, 2011
Whispersync for Voice: Ready
Language: English
ASIN: B0067VJD18
Best Sellers Rank: #55 in Books > Audible Audiobooks > Nonfiction > Law #136 in Books >
Customer Reviews

I loved this book! I followed this case relentlessly! I read all 2500 documents of evidence, the 837 pages of jail house letters and watched every minute of the trial but this book still told me stuff that I didn’t know. When the trial was over I mentioned to my husband that I would love to sit down and have lunch with Jeff Ashton and chat about the behind the scenes that I didn’t get to see, I would love detective Yuri Melich to be in that lunch too. Anyway this book made me feel like I went to lunch with Jeff Ashton and told all that he could possibly tell. The evidence - it breaks it down for you, what happened in 31 days, what the police thought and the problems they had with the Anthonys. Not a whole lot of new stuff in this section if you watched the trial and read articles online and studied the timeline. But it did give insight as to what the detectives were thinking and of course Ashton’s point of view of the whole thing. The Trial - It discusses everything that happened to prepare for the trial and gives Jose Baez a real beating (he deserves it, don’t worry.) All pre-trial information was new information to me and it even goes into detail about Casey Anthony and how Casey 4.0 was developed (the lie that actually went to trial) it was more horrible than what Baez actually presented in his opening statement. The trial itself I watched everyday and Ashton does a good job summing it up and giving his point of view, plus he discusses what went on in the side bars that we weren’t able to hear. The Jury - They didn’t do their job. Period. Ashton also goes into detail about each Juror and his personal thoughts on their decision. He is alot more candid and frank in this book than he is in interviews. The Epilogue made me cry.
