Because this little book contains over 120 of the strongest, easiest, subtlest closing and 'keeping control' and 'taking control' over the conversation lines for network marketers. These are powerful closing lines to allow you to close your prospect. This is NOT a book on prospecting, recruiting or even a script book. This is a book that should be open at your desk as you make your prospecting and follow up calls. If you find you prospect off their script (they never stay on script - only you can do that), these lines will bring you back into control. They are subtle, but powerful. Here's some samples: How much does it cost? Millions of dollars not to get involved Can you see yourself taking people through a process just like I did with you? Customer Reviews

This is the most poorly written, poorly organized, piece of garbage I have ever purchased! I am convinced that all of these 5-star reviews are paid for and not honest or genuine. The quality is HORRIBLE. The lines are AWFUL. The organization is ATROCIOUS. There are MAJOR spelling errors on nearly every page! I am getting a refund right now, but really I wish they would pay me extra for the time I wasted reading this trash!

Since the main "inside view" of the book is just another ad, you have to figure this guy is a pretty die hard salesman. I figured he might just have something I could use. It starts with some advice, some background, some examples. It's good, but not something more than you'd get in your business support. It could have been done much better--more conversational and cohesive. Then the 150 lines and scripts: if you've ever heard a sales pitch and they give you some cheesy line that you know is a line...well lots of these are like that. They work, but they are kind of cheap. That said, you can rewrite them and say them sincerely. There are some lines that are more sincere and what I really like is that there are some nice questions to help you find the customer's needs and where they are coming from. For that reason, I can see the value of bringing the kindle to design your

sales pitch or to look over this before you go in to remember to start with asking questions instead of selling them on points that don't matter to them. Although it seems like calculated control to get the customer sharing their needs..isn't that what it's all about...fulfilling THEIR needs and wants?I bought it for 99 cents--I got my moneys worth.PS--for so few words, there should not be typos! Here is just one *exact quote* from the book: "Congregations, you own one of the lost priced but highest valued books on ."

Look, let me ask you, can you handle a good deal? By reading this book I got a great deal. This book does contain all that it states - the simplest, shortest, most powerful MLM and Network Marketing closing lines and scripts.I highly recommend for anyone trying to close a deal, use these creative powerful lines to increase sales for you. With a little modification they can be used for email subject lines, ad headers or as scripts in email letters and rejuvenate your existing lines.

I know that the book only cost 99 cents but I don't feel like I personally got any value out of it. So many of the lines sounded like high pressure car salesman lines that I know I couldn't use them in my MLM business. Sorry I really wanted to like it but it definitely didn't hold any value for me.

Quite by chance I had occasion to use one of the lines contained in this book, not for any commercial purpose, but in relation to a neighbour of mine. I was a bit worried about how she was going to react because I hadn't had much contact with her previously. However, the line I used seemed to work really well in avoiding misunderstanding and creating good will between us.After looking through this book I am sure that many more of the lines and scripts it contains offer the greatest chances of producing the most desired outcomes, whether in business, social or private situations. Others require a certain knowledge of the business world and many are little more than common sense.But common sense often needs to be made explicit, and this book provides a variety of different word formats that should help to promote good and productive relationships.

Most of the MLM books are old and out dated or to techy teaching the latest Facebook or Google Adwords technique or complicated as copy formula.David takes the best from sales, internet, and direct mail and makes to simple and understandable. I will invest in everything. He produces.

Hey! There are over 150 exact lines you can use to help with your sales in this book. Does the Author charge you 99 cents a piece? No... you get them all for a song! Many of them are worth

several times the price of the book by themselves. If you can't see the value in this ebook... you're blind!

If you want to know how to make a good deal, you have to read this book. David Williams tells you in an "easy to understand" and simple way how you pick up the phone and handle the prospecting and follow-up calls without losing your customer. The lines in this book will increase your sales. Highly recommended!
