Bright: Architectural Illumination And Light Projections
Synopsis

The use of light and illumination in architecture and design is currently evolving and making an increasingly significant impact on various creative disciplines. Bright presents a rich selection of innovative projects that are setting trends in the creative use of light. The included work has been implemented in both a commercial and cultural context around the world. Each designer or design company is portrayed in an eight-page spread featuring both stunning photography and detailed text information. Bright is an up-to-date reference tool for professionals working in the fields of lighting design, architecture and art. The book reflects the role of illumination as a multifaceted and interactive design element. In doing so, Bright sheds new light on the future of architecture and design.
