# Making Money At Home: Methods To Make Money With Drawing Portraits: How I Made More Than \$50,000 Selling Art Online And Offline (Ways To Make Money With Art, Selling Drawings)

## Synopsis

Great ideas that helped me make more money by selling portraits! In the past years, I have made an extra \$50,000 by selling portraits. The occasional order, the occasional event... it all added up and it didn't consume my time. In this short guide I will reveal some of the secrets about the methods I used to get customers and have a nice side-income by doing what I love at home, on top of my regular job: In some of my other books I lay out the techniques you can apply to draw beautiful portrait, but selling it is a whole different trick. Do you love to draw, and are you wondering how to sell your works? Then don't wait and buy this relatively cheap book so you can get some good ideas! Keywords: selling art, sell art, how to sell art, how to sell artwork, selling artwork, turn art into cash, turn art into money, make money with portraits, make money with drawings, make money with drawing, earn money with portraits, earn money with drawing, earn cash with portraits, make cash with portraits, how to make a living with art, making a living with art, sell art online, selling art online, selling drawings, how to sell your drawings, ideas for freelancers, ideas for freelance illustrators, freelance illustrations, illustration selling, sell illustrations, market illustrations, how to market artwork, how to market drawings, how to market pencil sketches, marketing portraits, marketing art, marketing artwork, illustrator marketing, illustrations marketing techniques, marketing tricks for illustrators, marketing tips for freelancers, freelance artist marketing, freelance artist sales techniques, how to market art online, marketing art online, marketing art on internet, selling art on internet, sell your art on the internet, how to sell your drawings on the internet, internet marketing for artists, online marketing for artists

## Customer Reviews

I am in the initial stages of starting my arts business online, and this book certainly made me realize that artists don't have to starve! I got some unique ideas about advertising my art in places where I had not thought about at all - online flea markets and free ads. I have been able to define keyword rich ads and use the smart pricing strategies suggested by the author. I have also set up my Pinterest account based on his suggestions, and I am generating interest! This is a very useful resource!

Really interesting way of making some extra money even if you don't intend to do it full-time. It seems like something I might try out and based on the book it looks very promising. This is a good guide so I recommend getting it if you're interested.

An amazing book, that brings a breath of fresh air to the table. This book does not talk about the usual making money "quick fixes" such as how to look for the best platform, or where to invest blah blah... It does however help you find a new, fair way to talk with your inner self and make plans about your goals of making money with your drawing skills. This is a very helpful book for the novice who is just contemplating becoming involved in art business. It starts at the real beginnings. Your beginnings, to reflect on how you look at and value money. It also covers both the basics of drawing portraits, as a refresher, such as proportions, anatomy, rendering as well as more advanced tips and techniques. If you are considering a venture into the craft world, this book seems very helpful. It is a great guide to help you turn a profit with your own crafts.

Here is a book that inspired me and gave me a new idea to make money from home " by drawing portraits! I loved that this book was written from the author's personal experience of how he has made this into a profitable side income. The book was written in an easy to understand and easy to follow way, especially for newbies. Very importantly it also reveals some specific methods he has used for successfully getting customers through online channels (I won't share them here " )

youâ€™ll have to read the book). A worthwhile read!

This is the second of Vincent Noot's books that I have read. After reading his "How to Draw Realistic Pencil Portraits" and getting some experience at drawing from a photograph, I thought, why not try to make a little money doing this, so I downloaded this one. And I'm not disappointed. Right now, my drawings are just a hobby, but someday, when the talent kicks in, maybe I'll take my new found experience to a trade show, or fair like Mr. Noot has. The book talks about how to market your work on websites, Ebay, Social Media, going to Events and making up handouts and basically how to talk it up.

The author definitely knows his online marketing in this field, and I don't see how you couldn't increase your income if you used all the methods outlined in this book. Doing so will definitely get your name out there, get yourself noticed, bring in repeat customers and more. I enjoyed the social media strategies listed and started implementing them right away, effectively increasing my Twitter and Pinterest following. Enjoyed the original content.
