Customer Reviews

"After reading this book - the word Ultimate (in the title) is an understatement. If Zig Ziglar, Brian Tracy, and Tom Hopkins only specialized in telesales, all combined would probably not be able to provide such an abundant amount of immediately useful and practical sales info. No matter what type of sales you are in, this book should be bought, read once, read again, and then used over and over on each and every sales call and interaction. The scripts here are worth their weight in commissions, bonuses, and rewards that will be earned on account of having used them. Ultimately, this book provides you with a proven scripts and techniques that will make you successful. I can't recommend it enough!"

First I have to say that when I saw that this book was almost \$40, I was like, are you kidding? But I was desperate to get through to the decision makers (I set appointments then go close insurance products), and if I heard one more, "Will he know what this call is about?" I think I would have quit. So I ponied up the dough and got Mike's book. When it arrived I started reading it and couldn't put it down! OMG! It is packed with every come back I ever needed, and none of them sound cheesy or salesy. I couldn't wait to try them! Well, I've been using them now for almost two weeks and it's like a whole new world out there for me. I'm totally prepared for everything that used to blow me off and not only am I getting through to prospects, but when I do I actually now get the rapport I need and get 'qualified' appointments. I'm telling you, it's amazing. I've been spending the last few days adapting scripts and making them my own. I'm telling you, I wasn't a believer in scripts until I read this book, but now I know why I was struggling so much. I'm actually looking forward to calling in January and feel that 2011 will be my best year yet. This book rocks, and if you sell over the phone, believe me it will be the best \$40 you'll ever spend on yourself. Plus you get free shipping!

As a sales trainer, and author of sales books...I was fascinated to find this treasure. First, let me say

that the price seemed out of line. It's a paperback book, and I assume that selling it for \$35.96 will hurt sales. On the other hand, it really is worth the asking price. You get multiple, quality, scripts for cold calling, answers to common objections, and closes. Each section gives you multiple responses, so you can pick which one fits your style of speaking and temperament. These are not textbook scripts, but ones that almost certainly will work. If you are selling something by phone, I think this book would be a worthy addition to your library. Study it.

I took this to a print shop and had them cut off the paperback binding so I could place in a 3 ring binder - I have used and read on many occasions and while it was PRICY - I use it often. I don't know that I can say my sales increased x% since I got it, but I use the book often and find it very helpful. There are many examples of types of products that I can adapt (or omit) as I review. Great resource to me

The most amazing books on phone scripts... this is like a bible to me... I sleep better at night knowing that I have this by my side... If you are in any type of business work that requires to reach out to clients and prospects... go for it... well worth the money

what else can be said about this book that everyone is not already in agreement with. its great for the sales newbie as well as the old veterans. there are several "a-ha" moments throughout the book. its great to see things laid out in a step by step manner to get everyone to the same goal...closing the sale. this book is a must for anyone that's in sales of any kind or even in sales management for that matter. i could go on and on of why you need this book.... but instead, i'm just going to tell you to order it... you and you pocketbook will be glad you did.

If you're in sales or sales training you run into the occasional "stumper" that your customers or students throw out at you. This book brings some really fantastic phone scripts that are proven. You can tell Mike Brooks has done this for a living and I refer back to this treasure trove of usable, relevant, scripts that really do work!
