Customer Reviews

If you are looking for the book with the cd, I don't think it exists. I ordered this twice from two different merchants and it came with online audio only. When I copied and pasted the title from to sheet music plus, it pulled up the same online version only. Hope this helps. If you don't care that it is online you should have no problems. :-)

It is such a good book for voice students, especially if you are studying in a university setting where you have to have the information. It gives the background information about each and every composer and other information like that. I can't wait to start working in these songs even more.

Use this almost every day. A great anthology.

Great
