Customer Reviews

This is a great collection with newer songs. It has some background information on each show in case you're unfamiliar with them. I also love the fact that it shows the vocal range for each song. It shows you a section of the song that would be good for auditions. That could be very useful.

A book of wonderful Broadway songs for voice. It has been a great way for my granddaughter to learn so many of the great songs from various Broadway musicals. It has been very interesting for her to learn where some of the songs she is so familiar with got their start. Enjoy!

I bought this as Christmas present for a young (12 year old) girl who is currently auditioning and appearing in principle roles in local musicals. I know nothing about musicals other than hating to sit through them but I know a little bit about general music auditions. I thought this might be somewhat useful to her. It's WAY useful. I was shocked at how much she has gotten out of it. She has had successful professional auditions before but this kicked it up a notch. If you are thinking of buying this for a girl who auditions - just go ahead. I didn't do 5 stars simply because there could have been a bit of an update on selections that are slightly more current today (as of 2016). This is totally minor since the selections offered showcase a young singer's range and emotion and they are current in musical theater.

This is an awesome book for finding audition pieces. It tells a little bit about each show and recommends 16 bars of each song for the auditions. The CD is nice to listen to even if you're not singing along.

My voice students love these songs--some new, some familiar, and use them for study and audition. Balance with some classical and folk stuff, and a vocal year of study is complete! I keep several copies of this book on my teaching shelf!

Our daughter wanted a book that she could sing with outside of voice lessons because her teacher doesn't want her working ahead. She loves this and sings in the car and at home to it all the time. Great songs!

I'm very disappointed. I didn't read the description well enough. Other reviews were good but I'm not happy. The book has a 1/2 page story-line & a little history of each play. That takes up 21 pages. The next 190 pages are sheet music with the words to the songs where they should be--like a hymnal. The 2 CD's are just piano music with nobody singing. Boring. I expected to teach my Teen by singing along and also reading the words and music. I have no idea what the songs are supposed to sound like. I hope we can find some of the songs on You Tube so this purchase isn't a total waste. My other complaint is that most of the plays are all really old and unheard of by our Teens. My disappointment here is my own fault. I should have read the table of contents better. None of the recent plays like Cats, Les Miserables, Phantom of the Opera, Sound of Music, etc. are included.

The complete everything to our aspiring piano and singing music student grand daughter. Great book. A great tool in advancing your student.
