## Customer Reviews

This book attacks the concept of political correctness and the hypocritical quicksand of "moral relativism" by weaving a tale of suspense and intrigue into the everyday life of a liberal newspaper reporter. The book hooks you from the beginning, with a story about three friends on a typical Sunday afternoon watching football, and tossing a coin to see who will drive to get the pizza at halftime. The coin lands, and stays, on its side! All three pile into the car together and after picking up the pizza and heading back, there is a terrible accident and the story picks up with one of the three, the reporter, awaking in the hospital. Thus begins a journey during which his popular beliefs about life, meaning and morality are challenged in a very personal way. Instead of spoiling the story, I will leave it up to the reader to explore. The message of the book can be best described by the following passage regarding morality (page 419). "Maybe the greatest danger isn't when the rules get broken, maybe it's when the rules get changed. Once they're changed you can follow the new rules and think you are doing the right thing, while all the time your new truth is just the old lies. You

can tell yourself it's OK because the standards have changed, but if the standards mean anything at all they don't change. I want to follow the truth no matter where it leads me. The Truth will set you free."Overall, this is a well-written story, and provides enough twists and turns to keep the reader interested. Often however, the author seems to try and take on too many issues at once.
