I teach piano, and for the level and price, you get a good bang for your buck with this and others in Faber's series. Some of the songs are old to youngsters, but if they have heard them they like trying!

I am a piano teacher and have taught for many years. I love the piano adventure books. When I am looking for a fun song that my students can play I always use the popular series of the Faber books. They have clear levels so that I get exactly what I want and my students love the songs. You can't go wrong with these books. Level 2a and Level 2b has some of my students absolute favorites.

I've used these books for my students as supplements to their lesson books for several years. They enjoy playing songs they know.

This book will keep the kids interested in playing piano and make practice desirable! The songs in

this book include so many favorites; everyone will enjoy listening and singing along. They are a great length for this stage of playing. The hand positions move around in a way to encourage growth, but not to frustrate. You will not be disappointed at all, and you cannot beat the price!! I think I will gift a few of these, as well. :)

These books are great for students learning piano. The music is easy to read and learn. Playing songs on a students level that are fun and popular, helps them to want to practice more. My daughter really enjoys this book of songs.

My children love this book. It has tunes from Lion King, The Little Mermaid, Harry Potter, and Somewhere Over the Rainbow. The arrangement is playable for beginners.

Lot of fun songs. Kids like this book very much. They learn play songs from their favorite movies. Good Book.

This is one of my favorite popular books. The simplified arrangements capture the essence of popular pieces and really sound impressive when played by a beginner. Highly recommend.
