I Hate Myselfie

Synopsis

The audiobook that more than 12 million YouTube subscribers have been waiting for! Shane Dawson's memoir features 20 original essays - uncensored yet surprisingly sweet. Shane Dawson has always been an open book. From his first YouTube vlog back in 2008 to his feature film debut *Not Cool* to a cover story in *Variety* magazine, Shane has documented his life pretty thoroughly. We've seen awkward and adorable Q&As with his mom, weight-loss center drama, love life details, and the all-important haircut reveal. We've seen his hilarious spoofs of Miley Cyrus, Paris Hilton, and Sarah Palin. His music videos are awesome. But in his upcoming memoir, fans will finally get a chance to see the real Shane through personal stories that are at once humorous and heartwarming, self-deprecating and totally inspiring. Highlighting key moments of his childhood and adolescence, through his phenomenal success on YouTube, and continuing on to his more recent experiences as an actor and director, Shane's memoir will feature the silliness and satire his fans already enjoy, but it will be even more in depth, more real, and more portable.

Best Sellers Rank: #21 in Books > Audible Audiobooks > Humor > Essays #38 in Books > Audible Audiobooks > Biographies & Memoirs > Entertainers & Celebrities #51 in Books > Humor & Entertainment > Humor > Essays

Customer Reviews

This collection of essays and short stories runs the gamut from laugh-out-loud hilarious to touching to exhilarating. If you are looking for a quick, light read that will get you chuckling and spitting up your drink, this is it. My favorite chapter is called "The Original Catfish," and details how he decided to get back at some kids who kept making fun of him. At one point he's so upset at their teasing that, "I ran to the bathroom and locked myself in the stall. I cried for a good ten minutes and then

took a s***. There's nothing more depressing than crying while you are smelling your own s***."Shane decides to get them back, by posing as a woman online who is interested in them. Hijinks ensue, and young Shane is then, for once, given the power to shut them down. Shane covers so many funny stories from his life, including his first kiss (at age 21 to a girl), his three year job as a salesman at a weight loss center(!), and even his experiences with astral projection. His writing is witty, irreverent, sometimes filthy, and always inspired. I especially loved all his pop culture references, from Saved by the Bell to Gary Busey to 7th Heaven to even Sizzler and Nutter Butters. Throughout his stories, his rampant self-deprecation all-but-covers-up his underlying issues with self-image and self-esteem. Reading "I Hate Myselfie" made me remember another book that's also about a young man who struggled with being considered different. Wade Rouse's At Least in the City Someone Would Hear Me Scream: Misadventures in Search of the Simple Life is quick, fun, hilarious, and, at times, touching read. It's worth a look if you like Shane.

I purchased this book for my daughter who has followed Shane Dawson for several years now. We both have been a avid follower of Shane. We decided to read the book together. We laughed to tears and then we cried and laughed again. I must say that this is one of the most entertaining books that I have read in a long time. My daughter never liked reading but she couldn't put this book down. She hopes that he will write another one and can't wait to have him read it to her as she plans to purchase that down load as well. I think anyone with a sense of humor would love this book young or old. I am so glad that I purchased this book for her. It gives an inside story to Shane and his personal experiences though some are sad most are extremely funny. I would highly recommend this book as a gift or just for yourself regardless of your age. We all have done similar things in our life but he has put it together in an amazingly enjoyable book that you once you start reading you simply can't put down. It was like four am when we finished it. A must have for your book shelf.

I frequently watch Shane on Youtube (to be specific, everyday). And getting to see into his life, almost like it was "our little secret", was really fun but really sad at the same time. I don't mean I was sad that I spent the time reading it, I meant the story was sad. I knew from a lot of Shane's video's that he had a hard time when he was growing up, but I didn't know it was like that. Being a Christian, like Shane, it was good to see that he went to God for help when he needed it. I must say, it was great getting to have Shane for an hour and a half while reading rather than only 5 minutes a day. How do I talk about this? I mean, I'm guessing that if you're reading this, you probably have an

interest in Shane or reading his book. If you want to read his book, read it. It's good. Especially if you like his humour. I mean, yes, I will admit there was some things that I didn't find as funny as some may but everyone's different I guess. I do enjoy watching Shane's video's but getting to see into his life, REALLY, was a totally different experience. His stories were interesting, kept my attention, made me laugh and sometimes made me really sad. There was a lot of sadness when I read this. But all the laughing and happy moments made the story worth it. And, a little side note, the cover is amazing. I love the use of colour and lighting. Just amazing. Another amazing thing about this book is that Shane got his fans to draw pictures for each short story in the book and I think that's another awesome thing he has done. He is bringing recognition to those aspiring artists, not all for himself. What I'm trying to say is: job well done Shane. I certainly enjoyed your book and I feel really bad I couldn't see you on your book tour because I love books so much. Which is why this was an awesome idea. A mix of him and books... just awesome.

There is a reason that this almost has a perfect five star rating on . It's THAT good. I am soooooooooo not the target demographic for this book. I'm close to forty years old and rarely watch youtube. Before this book I had no real clue who Shane Dawson was. I maybe had seen a few of his videos. My daughter begged me for the book and I'm excited whenever she wants to read. I came and looked at reviews before purchasing it and they are overwhelmingly positive with the exception is some parents. I decided to order it and read it before she did. I freaking loved it. It literally had me laughing out loud (my strange addiction- which isn't a funny story per se but the visual picture I got of him in a bathroom sink screaming about the devil... well it threatens to send me into hysterics right now) and also crying. (Denny's and Death). I felt like I really learned a lot about him and I LIKED him. No his language isn't clean, yeah sometimes he's a little gross (dude has some intestinal ISSUES) , but he just comes across as genuine. If I tell my little girl that life isn't always gonna be so bad, I probably get my eye roll. Shane tells his funny/tragic stories and she has hope. My daughter is almost 11. As her mother I'm ok with her reading this. There was only one part I thought might be a little inappropriate but on the whole FOR MY CHILD I think is a great book. Of course you might have a different relationship with your child. My daughter is wise beyond her years. We discuss things like gay rights, politics and religion. She never doesn't ask a question she is wondering about. "Mom what's a prostitute? Mom what's masterbate mean? Mom why are people racist? Etc... I'm so glad I ordered this book. Shane Dawson has a new fan in me! This book was a personal purchase and I'm leaving a review so as to help future potential buyers.
