Nemesis: One Man And The Battle For Rio

Synopsis

Nemesis is the story of an ordinary man who became the king of the largest slum in Rio, the head of a drug cartel, and perhaps Brazil's most wanted criminal. It's a gripping tale of gold hunters and evangelical pastors, bent police and rich-kid addicts, quixotic politicians and drug lords with math degrees. Traversing through rain forests and high-security prisons, filthy slums and glittering shopping malls, this is also the story of how change came to Brazil. Of a country's journey into the global spotlight and the battle for the beautiful but damned city of Rio, as it struggles to break free from a tangled web of corruption, violence, drugs, and poverty.

Journalist Misha Glenny's exploration of criminal gangs and drug trafficking in Rio de Janeiro focuses on one favela (slum) and one drug lord. It's a fascinating and surprising tale that pokes under the covers of the broad generalizations that dominate news coverage both of poverty in Brazil and of the drug trade. Drug trafficking, the arms trade, and Brazilian politics. Glenny's subject is Antonio Francisco Bonfim Lopes, "Nem of Rosinha." (Glenny translates Nem as "Babe.") Conducting interviews with Nem in prison, he reviews the rocky political history of the country during the military dictatorship (1964-85) and the tumultuous democratic period that followed. Though he keeps returning his attention to Nem throughout the book, Glenny describes the man's trigger-happy predecessors and competitors and veers off into broader issues. Nem comes off as extremely intelligent and a brilliant manager, and he resorts to violence much less frequently than his rivals (or, apparently, the police, for that matter). Unlike other Rio drug lords, Nem dealt almost

exclusively in cocaine, shunning the arms trade and extortion that were common in other slums. Like the others, he meddled in the corrupt politics of the region. The most wanted man in Brazil •Nem ruled the favela of Rosinha in the south of Rio de Janeiro for four years (2007-11). Glenný describes the favela as the largest of Rio's many slums. But Nem's influence extended far beyond the borders of his community. When arrested by police in 2011, he was estimated to be responsible for more than 60% of the cocaine consumed in Rio and have a net worth of \$60 million. The Brazilian government labeled him Public Enemy #1.
