Great read! I find this eBook very informative and well-written. A perfect tool you can use in training your puppy, it contains valuable lessons on how to respond to their changing personality and learn how to train them into an obedient and lovable family pet. The author provided the seven exact and clear steps on how to make your puppy the most loyal and loving family member. I must say that the tips and strategies that are included in this eBook are very effective as I applied it to my own puppy. I highly recommend this eBook to everyone who are planning to adopt a puppy!!

The title of this book certainly caught my eye and that is basically the reason I downloaded it. Also, I have a dog and you can never know too much about your best friend. The book lays out basic commands and techniques of dog training in a really simple and straightforward way, I like that. It doesn't try to invent something new, be groundbreaking or never heard of, but the methods of training are well explained and easy to follow. It summed up important things into 7 steps and that makes it even simpler to follow. I think every dog owner should try to learn things in this book, it would benefit both the dog and the owner. Recommended.

I am a new dog owner and found this book to be very helpful. It's simple, easy and practical. The book covers the basic commands and dog behaviour. I'm in the process of training my dog, a Chihuahua, and it's not easy. But, this book keeps training simple.

Read the book and am totally convinced that this is the only way to train a dog. Such insight from the expert Jill Lopez about animals and this gentle but firm approach. I wish that all animal trainers would use this method. There would be fewer incidents with humans and their pets or with another person's pet attacking someone. Excellent instructions on how to compassionately train your dog, especially as to how previous instructions build on each other for better control over your dog. Also this book is a relative inexpensive way to learn about training your dog.
