## Customer Reviews

This is really a cute and nice story that has something very important to teach to children, which is tolerance and acceptance. It is so cute the way the creeper writes to his diary, which is one's best friend. It also shows how to get satisfaction, one sometimes will have to get out of his comfort zone, and this teaches children already how to be independent, which is very important! Sometimes, we had to do uncomfortable things to reach a goal, as life is tough. Overcoming all the hardships and obstacle is a victory, as the story ends!

The character of this short story, a little creeper has depicted the true meaning of friendship, This short story revolves around the search for the real meaning of friendship through the incessant adventures of the main character. True friendship prevails in the end when the meaning is revealed by those who stand by you. I absolutely think that this is the moral of the story.

This is another diary I got on promotion, now this book is kinda weird. It's the diary of a strange creature called a creeper. Now I don't have the slightest idea, what a creeper is, to me it looks a green lump of manure. Now this green creeper has a diary which he writes his daily occurrences,

like meeting up with a piglet in the rain, a lone wolf hunting sheep, a human lumberjack who almost establishes a conversation with and the sort. It's a very particular book, some might find it boring, others useless. I found it to be strangely funny.

I downloaded this for my son who is an absolute Minecraft fanatic. Thank goodness for the one who came up with the idea of writing Minecraft books because this is a good substitute for the game itself. It's a win-win situation for me. My kid enjoys it as much and I don't have to worry about him spending too much time on his tablet. Plus, he's reading. Score!

Amongst the Minecraft stories by Funny Comics I have read, this one is my least favorite so far. It didn't have the same "wow-this-is-surprisingly-good" effect on me unlike the others. Maybe because 1.) a hard-headed creeper whose only goal in life is to put himself in harm's way by purposely disobeying rules and orders set by creepers older than him is not a good example for kids and teens to emulate just because of mere curiosity, 2.) it did not have much humor and funny convos that made me like this series to begin with, and 3.) a few typos can be observed especially in the first few chapters of the book. Suffice to say, I'm a bit disappointed but nevertheless, I look forward to the next Minecraft story that will be released.

What a unique story and well written. In this minecraft universe the most feared characters are the creepers. The writer has given us his version with a superb twist, like fan fiction! Great for kids and for all minecraft fans, young and old.

This is an amazing story book. The story is unique and cute as the Creeper who is the main character of the story writes his diary and share his daily story with it. It's a very simple plot but in life, we also seek true friends. Friends who will accept us, warts and all. This story is design not only for minecraft players but also for children the value of friendship and sportsmanship. This book story is also fantastic. This is a really best book for children. The book teaches how somebody that might not be really social can change, so I think he might relate with the creepers. Overall, it's a great story book. Highly recommended.

I have been reading Minecraft books for a while and have enjoyed doing so despite the fact that some of the books really make no sense. This book, however, was interesting to read and had a good story line that followed right through to the end of the book. You never usually find a friendly

creeper, so this book provided an interesting twist to the behaviour of those creatures. All in all, it was a good 30 minutes of reading material. I can say that anyone can read the book. There is no foul language in it and the overall composition of the book is good.
