Learn How To Increase Your Chances Of Winning The Lottery

Synopsis

In his book, Richard discusses the ins and outs and dos and don'ts of buying lottery tickets to increase your chances of winning. He has created a method that he and members of his family use that has enabled them to WIN several lottery game GRAND prizes. This is a very easy to use method and will work with any type lottery games (scratch tickets or number games) in any state or country. Here are some quotes from people who have used his method: "My husband and I used Richard Lustig's lotto method and within months of starting the method we hit a Mega Money jackpot for 2 million dollars! It was really easy to follow. You only play what you can and you can still win! Shaun and I will only play lotto from now on using these strategies." (Jennifer and Shaun, Florida) "Since we've been using your method, we have definitely been winning more than we used to. It's easy to follow" (Dale, Florida) "I just wanted to let you know that my husband and I read through your lottery method last night. It seems great. It seems to be just simple logic and makes sense." (Kate, Illinois)

Book Information

Audible Audio Edition

Listening Length: 45 minutes

Program Type: Audiobook

Version: Unabridged

Publisher: RICHARD LUSTIG

Audible.com Release Date: May 29, 2012

Language: English

Best Sellers Rank: #4 in Books > Humor & Entertainment > Puzzles & Games > Gambling > Lotteries #21 in Books > Audible Audiobooks > Arts & Entertainment > Games #107 in Books > Audible Audiobooks > Nonfiction > Reference

Customer Reviews

I found this book in my local library and quickly read through it. After reading the very basic and often misleading advice in the book (play more numbers, buy more tickets, play the same numbers each time, etc), here's my advice: Don't buy or waste your time (all 20 minutes of it) reading this book. Here's why.- The lottery is a probability game. There is NO WAY to be an 'expert' at beating the system. If I flip a coin 100 times, and I call it correct 74 times, does that make me an expert on how to call a coin flip correctly? Of course not...if anything, I am lucky. Each ball in a lottery machine

has the same odds of showing up. So you could see a winning number repeat before you see your numbers come up. That is where his 'play the same numbers' advice is flawed. He makes you think that you are a lock to win by playing the same numbers over and over. Hard reality: Mathematics and probability say you are not a lock even if you play the same numbers for your entire life.- Lustig has won 7 jackpots, yet his winnings are never described as being much more than \$1 million.

Why? Because he wins games that have better odds (pick 3's, pick 4's, etc), and just plays a lot. He can't win any 'bonus ball' game because it throws a HUGE wrench into how he plays. And, again to the coin flip example. If we flip 100 times, I call it correct 7 times, am I an expert? Far from it. Just think how many lottery games Lustig has played and NOT won. If he wants to claim his expertise, I'd like to see him break down what he's paid vs. what he's won from the lottery (for example, how much money he invested in playing before he hit each jackpot).- His advice is simple, at best, and common sense, at worst. It comes down to this: play more. How is that advice to win?

My Hubby purchased this book for me after I put it on my wishlist because I saw this guy on television. It's like fool's gold. You purchase something at a high price hoping for a "big win." The American dream, especially in this economy. But, in this economy, the Charlatans' come out to play. It's a shame. I see this on t.v, newspapers, etc. all the time, where people get taken advantage of. "Pay XX amount of money, and we'll release these funds." I was always amazed at how people fall for these scams... until now. We spent \$40.00 for 40 pages. And the pages have a lot of white space in them. Remember school? The teacher would tell you they want 2 pages of a report and you or some other kid (cause certainly you or I never did that! HA HA) would use really big letters or extra fluff words to make it seem like it was more than it really was. Funny how the teacher always caught on! :) I honestly figured that 40 pages was 40 pages. The book looked big on the outside. Which to me, is another part of being taken advantage of. I guess it's a good example of "Don't judge a book by its cover." As to the actual content. It's basic stuff you already know. Use the same numbers, buy a lot of tickets all the time... etc. I'm sure there are a lot of people, worse for wear, that followed this method all the way to Gambler's Anonymous. I'm sure they made some money. Enough for their dues, anyway. Lesson Learned for me. Thankfully I can return this book per its return policy. It's interesting to me that this guy, (the author) and his family, won a lot of money. With all that money, why did he feel it so necessary to take advantage of others by making even more money in this way? He could have charged an appropriate amount for the book.
