Ultimate Guitar Play-Along Pink Floyd Book/online Audio (Ultimate Play-Along)

Synopsis

(Guitar Book). The Ultimate Play-Along series gives you everything you need to jam with your favorite songs. The books contain note-for-note tab transcriptions and access to online audio tracks featuring amazing sound-alike recordings. There are two versions of every song in the audio: an instrumental sound-alike recording and an instrumental accompaniment track without guitar so you can play along. When you use the PLAYBACK+ feature, the TNT (Tone 'n' Tempo) Changer lets you easily loop sections for practice, slow tracks down or speed them up without changing the pitch, change the key, and switch back and forth between the full instrumental and play-along tracks. This edition features 8 Pink Floyd classics, including: Another Brick in the Wall (Part 2) * Comfortably Numb * The Fletcher Memorial Home * Have a Cigar * Money * See Emily Play * Time * Wish You Were Here * Young Lust.

If you need to hear a song to learn to play it this is the holy grail of guitar books. Picked it up and in a week could play wish you were here all the way through quite well and am now working on money. This is a great self learning tool and I would definitely recommend it.

This is an excellent book for those wanting to learn some Floyd songs! The tab is accurate for those, like myself, that don't read music (yet). The CDs are nice as well, providing a "cover" version

of the song and a version with the guitar track removed so you can practice. What really shines about the CDs is the fact that you can loop sections of the music so you can get it down and slow down the track without changing the pitch! You can also change the key. Pretty nifty! Definitely worth the cost!

I bought this play along set to learn my favorite Pink Floyd songs. I am happy with the set. It has high quality recordings and accurate tabs.

I just recently discovered the Hal Leonard Play Along series, and I can't get enough. It's a lot of fun learning how to play songs that you could never figure out before. I'm anxious to see new additions of these DVD's.

Has most of the songs I wanted. I always try to get books with the play-a-long cd or on line access. But when you call the play a long on your computer, you have to punch "play" (not "download " to get the speed up/down control board. Nice feature for the price. The musicians aren't world class but they hit the right notes at the right time.

This book has couple of Pink floyd songs that I wanted correct tabs for. As a plus it comes with a CD play along track. You can practice along with the CD and hear how it is suppose to sound. For couple of songs that I wanted, I think it's worth it. And if I'm in the mood, I can try some other songs also.

I can only speak for Comfortably Numb solos - but there are quite a bit of errors in the tab for both solos of that song. I am comparing the tab from this book to what the consensus seems to be on internet tab sites and the book I got here on which seems to be very accurate. Alfred Pink Floyd Anthology Guitar Tab Book

This has The Floyd's greatest hits. Still learning, but enjoying the chord and tab method. Recommended for all levels of players.
