# Learn French In 15 Steps: The Simple Step By Step Guide To Beginner French

## Synopsis

Learn French The Right Way! These 15 easy steps will show you how to learn fast! Do you want to learn French? Are you travelling and looking to hone your basic French speaking skills? Are you a student looking to get a boost in your knowledge of the French language? Or do you just have a passion and desire to learn a new language? Whatever your motivation is to learn French, following a step-by-step guide is critical to helping you learn fast! If you want to master the basics of French, increase your knowledge of how to speak the language, and do it in the quickest amount of time possible, then this book is exactly what you need! Built on the fundamental principles of language development, this book will guide you step-by-step along the way as you learn the foundational principles of speaking French. These principles help you by teaching you the basic building blocks of the French language and then adding to them. The book starts with very simple ideas and aspects of the French language and then gets more complex as you listen, learn, and develop confidence along the way! The book allows you to go at your own pace as you study and learn each step. If you want to spend more time on learning the French alphabet (Step One) before you move on to pronunciation (Step Two), you have that choice! Today, when you purchase Learn French In 15 Steps you are ensuring that you will learn basic French the right way, following the right steps that are proven to help you learn quickly! So whatever your desire to learn French is, this incredibly easy to follow book will give you the exact blueprint for how you can be learning and speaking French in the shortest amount of time possible. Don't delay!

## Customer Reviews

As an educator for more than 20 years, I'm a fan of teaching others. And there is no greater challenge than to learn a language. Learning French is such a challenge, but enriching on so many levels. It's not only an intellectual challenge, but imagine transforming your travel experiences, allowing you to connect with new and interesting people. This book helps much to learn French. This is one of the finest books I have ever read. The language and the writing are so wonderful that you just have to savor it. This isn't for beginners who have never heard a word of French. For anyone else, I'd say this book is a valuable resource, no matter what level you're at.

This book is very comprehensive book on learning French. This is my first book on this topic. One of my friends recommended for purchasing this book. I am a beginner and this book really helped me a lot. It provides clear knowledge about this language. The author provides 15 easy and effective steps for learning this language. I think I am ready for communication with French people. Thanks to the author.

This is an easy way to learn French. Although I am not yet fluent I have enjoyed learning some of the romantic language for my upcoming trip to Paris. The way the book is written and presented is marvelous. Even for me who knows the preliminary principles it added to me some more. The novelty of the book and its print is highly appreciated. My admiration goes to the author.

This book is basically your jump start to learn french with the 15 steps that they created! Not only you will understand the basic of speaking in French but also develop yourself to speak french fluently!

Me and my husband enjoyed the book together. We are learning with so much fun throughout the pages of the book. Learning French is an advantage especially for my husband who is working away from home. Thanks Amy Fraks!

This is a fairly easy way to learn French. Although I am not yet fluent I've enjoyed learning a few of the romantic terminology for my forthcoming visit to Paris. The true way the reserve is written and provided is wonderful. Even for me personally who knows the preliminary principles it put into me even more. The novelty of the publication and its own printing is treasured highly. My admiration would go to the author.

Very impressive language tool! This book is a useful guide to those learners who already know a little bit of French. For completely new learners it is advisable to have a teacher to make you learn the language. If it's a craft or a hobby then we can learn by books, but for language it is advisable to take practical classes. Really worth recommending!

There are lots of tutorials how to learn French in a short span of time but when I tried those I didn't learn anything because most of the words in other tutorial are different from other tutorials. I really want to learn French even it takes lots of time. I looked a book in how to learn French and I saw this and give it a try. I had fun reading and following every step in this book. I learned the alphabet quickly. But to make sure I will ask some people who are good in French if this book is real. This book is a great start but I think it needed more ways to teach us beginners.
