# The Vampire Lestat: The Vampire Chronicles, Book 2

## Synopsis

Once an aristocrat in the heady days of pre-revolutionary France, now Lestat is a rockstar in the demonic, shimmering 1980s. He rushes through the centuries in search of others like him, seeking answers to the mystery of his terrifying existence. His story, the second volume in Anne Rice's best-selling Vampire Chronicles, is mesmerizing, passionate, and thrilling.

Best Sellers Rank: #24 in Books > Literature & Fiction > Genre Fiction > Horror > Vampires #72 in Books > Audible Audiobooks > Fantasy > Paranormal #97 in Books > Audible Audiobooks > Fiction & Literature > Horror

## Customer Reviews

If Anne Rice had never written another book after "The Vampire Lestat," her reputation as a rare genius would have been created and sealed with this one novel. Unlike most Rice fans, I read this book first, and it has always been my favorite of all the Vampire Chronicles, much more so than "Interview with a Vampire." I cannot count how many times I have reread this book, and with each reading, I find a new richness, a new insight, a new awe-inspiring peak into the mind of a woman whose genius may be madness, but with whom I will gladly cross the line. (Case in point: This is the only book ever for which I stood in line for hours to have the author inscribe her name.) I won't belabor the plot here; it is simply too baroque to try to put into simple words. Suffice to say that, in the first person, we meet Lestat, the teenaged son of an impoverished 18th-century nobleman, whose life is at best cold and harsh, at worst, a constant battle with cruelty of every sort for one's mere survival. One particularly dark and fiercely cold night, Lestat, a beautiful young man despite all his hardships, is out with his beloved dogs, hunting wolves. Into the strange fog he rides...and when he first hears the deep, surreal, and otherworldly voice calling him..."Wolf killer, wolf killer," we are there with him. And we are by his side as he becomes, in a strangely but riveting erotic passage,

one of the undead. A vampire unto eternity. All of Anne Rice's intensity, her eroticism, her love of history, her incredible sense of detail, and her dark view of the world is present in this book, much more so than "Interview with a Vampire." It is my suggestion that, if you want to sample Anne Rice, and have never read any of her works, this may be the book you want to read. And if you know Rice's works but not this particular novel, I urge you not to deny yourself another minute. This is truly one of the must-reads of one's life.

This is only my third Anne Rice novel though I have been a long time supporter of hers and a fan of her work. Having only recently read Interview with the Vampire, the first book in the Chronicles, I immediately wanted to read the next book, The Vampire Lestat. I'm so glad I did because it gave me a better understanding and a stronger admiration for Interview, of which I had somewhat mixed emotions about upon finishing it. In The Vampire Lestat, we learn more about Louis's maker and get to enjoy a nice long tale of his life story. We open in the 1980s with Lestat in New Orleans taking an interest in rock music and becoming a vocal celebrity. He has even sought out the book, Interview with the Vampire, to read and has determined much of it to be lies so he needs to set the record straight by writing his own book. From here, we spend a lot of time with Lestat as a human and get to study the close loving relationship he had with his mother. We meet his vampire maker, Magnus. We learn that Lestat loved the stage and we see the early development of what would become the Theatre of the Vampires which played such a crucial part in Interview. We witness Lestat's bond with Armand, the vampire who became the head of the theatre and learn a lot about his story and his creator Marius, who Lestat begins to obsess over. And Marius introduces Lestat to "those who must be kept," who are the king and the queen of all vampires. This sets the reader up for the next book in the series, Queen of the Damned. Rice excels at classic story telling, but treats her readers to a historical saga of fine vampire literature. Unlike the vampires today's generation obsess over, who are either blood thirsty monsters or sparkling romantics, Rice suffers her protagonist with questions of existence, being, and soul. Hers truly are vampires that will live forever, both on the page and in the minds of her readers.

I first became involved with the Vampire Chronicles when I saw Interview with the Vampire six years ago. I loved the film and I really liked Louis, Claudia, and Armand. I HATED Lestat. I thought he was a evil monster with a black heart. I read Interview with the Vampire eight months ago and I still hated Lestat. I hated him so much that I skipped The Vampire Lestat and started reading Queen of the Damned. I saw the graphic novel of The Vampire Lestat in a used bookstore a month or two

after I read IWTV and I looked through it. I was amazed at the beautiful artwork and I realized that there was more to Lestat than I thought. (He was not as evil as I thought he was before. He is good and evil. A living contradiction.) After I saw the Graphic Novel I saved my money and I bought it a few weeks later from the same store. I read the novel and I was completely blown away. It is PERFECT. It is dark and beautiful and it becomes very real as you read it. As you read the book Lestat almost makes you wish that you could be immortal. He also shows you that he is a complex character that cannot be labeled. (Most characters in movies and books are two-dimensional. They are either "Good" or evil" and that is what makes them dull. Lestat is everything and nothing and that is why he is fascinating.) Lestat is great because he is a perfect contradiction. (He is strong but he is weak. He is independent but he is dreadfully lonely.) I read TVL novel after I read the graphic novel and I now love the Lestat character. This graphic novel is impossible to find! It is out-of-print and it is VERY hard to find! You HAVE to buy this graphic novel if you have the chance. It will quickly become one of your most treasured items and you will be really glad you bought it if you are a Vampire Chronicles fan. If you don't buy it when you have the chance it will most likely become like the infamously insanely hard to find THE CROW graphic novel by James O'Barr. (A great book I would kill to have.)
