# Faber Piano Adventures Level 2A Learning Library Pack Four Book Set - Lesson, Theory, Performance, And Technique & Artistry Books

## Synopsis

This innovative and exciting method series combines the strengths of intervallic reading, multi-key, and Middle C approaches; offers a wide variety of sounds and styles with many optional teacher duets; and entertains and delights students with beautiful color illustrations and a carefully conceived layout. The Level 2A Lesson Book (HL.420174) follows Piano Adventures Level 1. The book opens with a Note Reading Guide and an introduction to eighth note rhythm patterns. Students work with 5-finger transposition, functional harmony, and musical phrases. Exploration of C, G, D and A major and minor 5-finger positions builds on intervallic reading skills that were introduced in the earlier level. Appealing repertoire reinforces key concepts and encourages students to explore musical expression through varied dynamics and tempos. Selections include well-known classics from the great composers and original compositions. The Level 2A Technique & Artistry Book (HL.420191) features effective "Technique Secret" exercises which train students in firm fingertips, light thumb, fast fingers, hands together coordination, and wrist float-off. An "Artistry Magic" piece at the end of each unit explores expressive playing. A useful reference section presents all twelve major 5-finger scales plus the seven white key minor 5-finger scales, grouped in easy to memorize patterns. The Level 2A Theory Book (HL.420175) has thematic tie-in with the Level 2A Lesson Book, inviting students into the pages for deeper understanding. A wide variety of theory activities engage students with eighth notes, phrases, transposition, and 5-finger scales. Composer biographies provide valuable context for Lesson Book pieces. The Level 2A Performance Book (HL.420176) offers an array of colorful elementary pieces that reinforce the concepts presented in the Lesson Book. The selections range from classical compositions to American folk songs and imaginative originals.

## Customer Reviews

Piano Adventures makes teaching my daughters piano fairly easy. The progression that these books follows makes sense and helps my kids go from one lesson to the next. My husband teaches them and plays the piano well but wouldn't be able to teach them without these books. They are a great tool and I am so excited that my girls are learning how to play.

Thank you for making age/level appropriate books for students. They have caught on quickly to your methods. I would say there is some lingo in the books, that if you haven't used these books from the very beginning, might confuse you a bit.

Have taught piano using this set of four Faber & Faber piano method books since they first came on the market. I highly recommend the complete set of four as they compliment one another and reinforce concepts.

My students love this series. The only problem is having to switch between all of these books in a lesson. Great for the younger students as it tends to keep them interested. But, is there a teachers book available that has the whole lesson in one?

My son used Bastien piano basic in the beginning when he was 3. A few months later after he finished level 1B, he transferred to Piano adventure (Lesson, Theory, Performance, Technic & Sight-reading), because his piano teacher was using it. It's well organized. Also, my son is learning fast using this book. I think he finished all 2A books in 2 or 3 months. We are all happy with his new books.

Faber piano adventures make playing the piano so much fun. My girls love singing the words to the songs as they become more familiar with them. We are definitely fans of these books!

Fast delivery and great price for four books. Exactly what we were looking for and just as it was described I would look for this seller for my next set of piano books

My son's piano teacher loves this collection. He is learning fast and playing well.
