Customer Reviews

I am thinking that authors wait to release some of their best books until later in the year just to have reviewers like me sound like idiots repeating ourselves about "this is the best thing this year" and similar accolades. I think I have said that about 3-4 times this year already. All that is to prepare you for me to say it again, this may actually be THE best thing I have read this year even though since it is book 1 of a trilogy the story is not complete yet. Malachi is one of the Irin, a race of mostly males that have inscribed magical symbols/spells into their skin to allow them to fight off attacks to humanity by the Grigori a race of mixed blood of The Fallen. Ava is a young woman, professional photographer that has been hearing "voices" all her life and has managed through mainly strength of will to remain sane. Through her meeting and developing relationship with Malachi she has found out some of the answers to her "voices" but not all. This quest for knowledge and a romance that

crosses all barriers will be the crux of this series. This seems to be a romance at the heart of the story since that is what drives much of the action and to paraphrase another reviewer, this is indeed the best mix of romance and action I have read in years, the mix of good, evil, and powerful beings with motives that are completely unknown are all thrown together in a mix of fantasy, romance and action that is addicting to the reader and by the end of the book you will be desperate for the next release.
