Tesser: A Dragon Among Us: A Reemergence Novel, Book 1

Synopsis

Imagine for a moment that you are a Dragon. A creature of unimaginable power, unending intelligence and strength, and you've just woken from 10,000 years of slumber. Worse yet, you've awoken underneath a city: Boston, an alien and strange place that defies everything you've ever known. Your last memories are of primordial forests, erupting volcanoes sculpting a developing world, faeries, witches, vampires, krakens, and monsters that feared where you turned your eyes. But all that is gone. Humans, only barely coming into their own in the world from your memory, have taken over. They have erected cities made of stone and steel erupting from the earth like stalagmites reaching for the high blue sky, and developed sciences that have overshadowed even the glory of old magic. This is not the way it was supposed to be. Meet Tesser, the Dragon. He who walks in any form and flies the skies free of fear. *A Dragon Among Us* is Tesser's story. Walk with him as he learns the human way, and discovers the dark truth about why magic has really faded from the world he calls home. And, just maybe, humanity will remember why Dragons were most noble and most savage creatures again. Welcome to The Reemergence.

Customer Reviews

The only other negative review was jammed at the very back (since that's how rolls, bad reviews go to the end of the list). I ignored it and hopped on this book, big mistake! First off, this is definitely Urban Fiction just to be clear. This is a similar flavor of genre to Dresden Files and the Iron Druid series, except it's written for a 13 year old boy. Did I say written for a 13 year old boy? What I meant

to say is, it's written for a crass, sexually frustrated, dumb 13 year old boy. How dumb? The sort of dumb that thinks Fast and the Furious had good dialog. THAT dumb. The author constantly comes close to breaking the 4th wall and talking at the audience about multiple modern day "issues" - only to embarrass the reader for having given over money to hear that "GMO's" might be the cause of Global Warming since "no one knows the real cause".... I'm serious, he actually says that. Want more? Oh he also mentions that "the government is corrupt, because of surveillance and all that". Seriously, that's how he talks. Does ANYONE learn anything from an opinion like that? He also rants against people that marry and have children right out of college. Why? I mean who cares??? Also, every woman is HOT + super horny all the time and they all talk about nothing but sex and men that they're checking out. Seriously, one woman nearly gets raped. She is then rescued, but in spite of how emotionally traumatized she should be, she hugs her NAKED male rescuer (and stranger) in the same dark alley where the rapist is still laying on the ground.
