The Witching Hour

Synopsis

Demonstrating once again her gift for spellbinding storytelling, Anne Rice makes real for us a great dynasty of four centuries of witches - a family given to poetry and incest, murder and philosophy, a family that over the ages is itself haunted by a powerful, dangerous, and seductive being called Lasher who haunts the Mayfair women.... Moving in time from today's New Orleans and San Francisco to long-ago Amsterdam and the France of Louis XIV, from the coffee plantations of Port-au-Prince to Civil War New Orleans and back to today, Anne Rice has spun a mesmerizing tale that challenges everything we believe in.

Customer Reviews

This may be my all time favorite book. Ever. I first read this book when I was 9 years old. I skimmed through it, reading bits and pieces. As I got older, I kept picking this book up and re-reading it, gleaning more and more of the information contained within the text. So many different stories, so many different characters. I remember re-enacting some of the stories with my dolls. This novel is epic, both in length and in the story. Dr. Rowan Mayfair discovers that she is adopted several years after the death of her adoptive parents and after the death of her biological mother, a woman she never even knew existed. Rowan is an heiress to a massive fortune and a large mansion in the Garden District in New Orleans. Along with the house and fortune, Rowan inherits a massive family with a long and twisted history and a family ghost. Maybe I love this novel because I too, am adopted. I think every adopted child fantasizes about their biological parents,, imagining them to be someone famous, royalty or very wealthy. Anne Rice created a character that seems absolutely real

from the beginning, coming alive off the page and turning into a living, breathing woman before your eyes. All of Anne Rice's characters throughout the novel have a tendency to leap off the page and become real for the reader. I can almost hear their voices, accents and inflections in the dialogue, as if I was watching a mini-series in my head. With each re-read of this book, I enjoy it more and more. With each turn of the very last page, I feel as though I have uncovered yet another dark secret from within the novel. A sense of accomplishment comes every time I read the last few words.

If I can sum up this book in a few words I would, but I cannot. It would not do this book any justice to give you a few simple descriptive words on how much I loved this book. Mrs. Rice has outdone herself once again, by creating an entire world for us to dwell in and stretch our imaginations even further. Her mastery of the unknown, description, and the undead is a tremendous gift. The Witching Hour kept me glued from the very first page to the very last. She has weaved an entire family history with so many "magikal-skeletons", a prime time television mini-series would be the perfect display of the magnificence of this novel. The Witching Hour in short, is one big history book. It details the past and current adventures of the family Mayfair, that through the years have amassed great wealth, magic, and influence from an entity known as Lasher to their kin. However, in the old tradition of witch covens - there can only be one who sits at the head of the family - and she is Deidre Mayfair and she is about to die. Her daughter, Rowan Mayfair, whom was taken away at the moment of her birth, never to know her family, has come back to claim what's rightfully hers. However, unbeknownst to Rowan, there's more to this family that meets the eye. We come to find that only women can inherit the role of the head witch of the family, but all is not as it seems because there is a power at work that is claiming this family into its incestuous ways to make the most powerful family. Through a mystical and magikal journey into the dark beginnings of this family's history, you come to know the most powerful witches of the clan. In a word-Julien..mesmerizing. When you read this you will know what I mean.
