Best Sellers Rank: #53 in Books > Audible Audiobooks > Arts & Entertainment > Performing Arts
#65 in Books > Humor & Entertainment > Humor > Comedy #68 in Books > Science Fiction & Fantasy > Fantasy > Anthologies

Customer Reviews

This collection of short stories (all available for purchase separately), timewise, picks up somewhere during Critical Failures II. Most of them are fairly short misadventures while everyone's favorite adventure troop are trying to scrape together some extra cash. If you haven't read Critical Failures I and II, read them first. If you have, and you liked them, the stories in d6 will be enjoyed as well. The characters are the same. The humor is the same. Unfortunately, some of the jokes are also the same. Towards the end, it seemed as if the author was running out of new material. Not enough to ruin the story, but enough to notice.

I can't wait for the next book to come out!! I've read CF1 &2 and at first the stories were a bit off-putting because of the language and Cooper, but through the books and short stories, I've come to like all the guys and appreciate their differences and some of the "plans" the guys come up with are brilliant. I don't think I've laughed out loud more often in reading ANY other books. Robert Bevan is a freaking genius. MUST HAVE NEXT BOOK NOW!!!!

I will be honest, I don't tend to read short stories. I tend to find that I am not satisfied with them because they tend to not be able to present a long enough narrative for me. I decided to take a chance because I caught this on a Kindle Countdown and I had a \$.99 credit towards an ebook. Robert Bevan, at least, can get me hooked on a short story. This first one shows him getting used to writing a compelling short story. The first few are obviously testing the water, but towards the end each one was just as enjoyable and funny as his full length novels. Just shorter. Generally, though, it does flesh out the question I always had in the back of my head. "What do these guys do when there isn't a huge adventure drawing them in? What does every day look like for them?" Turns out everyday for them is like everyday for a group of adventures in any RPG. There are no small number of short side quests to keep you busy, or bumbling adventures you stumble upon, or just the need to continue pulling in cash so you can eat and drink. I enjoyed it so much I immediately purchases 2D6 and 3D6 and am working my way through them.

The author has captured some of the essence that is involved in dice and pencil role playing games with a bunch of friends. I have laughed to the point of tears at the misadventures of this ragtag group documented within this book series. I hope the author continues to spin tells about this motley group of misfits.

Great selection of stories from our favorite misplaced adventurers. This is the first compilation of short stories that have been released in the Critical Failures book series. The story lines and character interactions are hilarious without overdoing any of the jokes. Particularly *Zombie Attack* and *Shipfaced* are riotously funny featuring some excellent inadvertent hero killing and a sea adventure with pirates of a variety.

Excellent. Very entertaining read. Low-brow humor written in an intelligent and humorous way that shows the author really enjoys what he's writing. Genuinely funny but also follows a good story arc if you read all the books in the series.

More lowbrow fun from the author of *Critical Failures*, *d6* is a value-priced collection of short stories set in the *Caverns and Creatures* universe. No mopey dark elves here, just good crude fun and clever misuse of gaming rules (As a gamer, I'll never be able to look at the *Mount* spell the same way again.). I would definitely recommend buying this collection over paying for the short stories piecemeal-once you've read one, you'll definitely want to pick up the others as well. The characters

of Chaz and Katherine, originally seen in Critical Failures, are absent here. Here's hoping they show up in Book 2.

I fell into this series by accident but quickly fell in love with it. I recommend reading the 1st book in the series before reading this one. I quickly read books 1 and 2 and was sad to find no book 3(just came out-hooray) so I settled for this collection of short stories. I enjoyed all the stories and really hope this series continues on for a long time for I would hate to say goodbye to them.
