she had been kidding herself. Her heart was still his. Alex Fleming knew what was waiting for him in Harper Falls. His sister, his best friend, a good job, and the woman he'd spent the last five years dreaming about--trying to forget. At the time, walking away had seemed like the only way. Now he has a second chance, but it isn't just his personal demons keeping him from Dani, his past is about to put the only woman he's ever loved in danger. He has a choice, walk away again or stay and fight. Love has a way of catching up with you. Dani and Alex are getting a second chance at their happily ever after. Now they just have to be strong enough to take it. Book two in the Harper Falls series is a stand alone story. Look for book three, Tyler and Drew's story, "If You Only Knew", coming in August. This is BK 2 of this series. This is story of Dani and Alex. It's full of action, passion and emotions. Dani is best friend of rose's. Dani still hasn't moved on after falling in love with guy when she was younger and never fell out of love with him and hoping one day he will come back to her. Dani is super funny and lovable.

This was an absolute beautiful contemporary military romance. I'm rating this a 4.5 star because it just ended too quickly for me. I always find these kinds of stories amazing because the male is the one with all the baggage once he leaves the military. Mary J. Williams is a new author for me, but after reading this and falling in love with her writing I'll definitely read more from her. This story follows Dani Wilde and Alex Fleming 5 years after they first met and fell in love with one another. Harper Falls is Dani's hometown, she thought life could continue on even though she had her heartbroken. Everything was peaceful until a hot guy rides in on his motorcycle and she sees that it's the only guy she ever loved...Alex Fleming. The story takes off from there. Dani Wilde is definitely not your typical woman. She may seem fragile and sweet, but she has a black belt and can fire off like a cannon when pissed. I enjoyed Dani so much. She never really held her tongue, but she was always understanding and caring. She knew when to take things slow and when to turn the heat up. She knew she made a mistake 5 years ago and decided this time around she wouldn't make that same mistake. Dani definitely has some fire in her. Alex Fleming is the hot guy that just left the military. He's sexy, smart, strong and funny. He may seem put together, but he carries his own demons from his military life. Alex was amazing -- I loved him from start to finish. He kept things truthful no matter what. He never lied which for a contemporary novel is great. He was always down to have sex with Dani, but he was also emotionally attached to her. He knew he loved her, but with his issue he didn't want to chance any harm towards her. Alex was the perfect kind of guy.
