## Customer Reviews

I will start off by declaring a few things. Yes, I have read the Harry Potter books. Yes, I do like them. Yes, I will read the rest of them. But no, I am not a fanatic fan who thinks Harry Potter is as good as it gets. You will find me in the middle of things. With that said, I will say I do not like this parody very much and I think I dislike it more whenever I think about it, and this is not caused by the fact that I am an obsessive Potter fan as I started off with saying. =) The book is very self-ironic which I think is a good thing (it often says things like "Nightmares can be extremely instructive (especially in cheesy books like this one)"). There are jokes in this book I found amusing, and there are several names I'm sure I would find more amusing if I knew what they were a parody of. I fear I haven't paid enough attention when I read HP. But Gerber seems to spend one hell of a time joking about sex and bodily sounds and smells. Which reminds me, this is NOT a children's book. There are things in

this book I do not find suitable for younger readers, heck, I wouldn't even find them suitable for my parents. =) Anyway, some of these jokes can be entertaining, others I just shake my head at. There is another thing I can't quite figure out about this book. I don't know if it takes itself seriously or not. This IS a parody, obviously, so I wouldn't be surprised if it's written badly on purpose. It IS written badly, let me emphasise that, and it gets stupid in several places, but I don't know if Gerber intended to. Sometimes I get the feeling Gerber tried to write the book as a \*real\* book, but unfortunately he failed. It even drags on at times, and I absolutely loathe the ending; I find it utterly ridiculous.
