# If You Give A Kid A Cookie, Will He Shut The F--k Up?: A Parody For Adults

## Synopsis

Before they Go the F\*\*k to Sleep, they need to Shut the F\*\*k Up. If you give a kid a cookie, will he shut the f\*\*k up? That is the question at the heart of this hilarious, deeply honest, profanity-laced book for parents who will do whatever it takes for a moment's peace. What really happens when you give in to your child's tantrums? The events that follow this seemingly simple act will test parents to the breaking point... while entertaining the millions of us who have been there ourselves (and lived to tell). Also a cautionary and instructive tale for new parents, *If You Give a Kid a Cookie, Will He Shut the F\*\*k Up?* is a must-have for every family library collection. Just keep it on the top shelf.

## Customer Reviews

The title of the book is hilarious and it's what grabbed my attention. It is a great premise parodying the children's books written in the same style, but after the initial joke, the book wears thin pretty quickly.

I bought this for my sister and brother-in-law for Christmas because the title seemed like the book would be something they would appreciate. The content just wasn't what I was expecting. I could see how some might think it is very funny, but it really wasn't relatable. I ended up not giving it to them for Christmas and just gave it to them ahead of time. I wish I had checked it out at the local bookstore before making a hasty purchase. The title was the funniest part!

I love gag books like this one. *Go the F\*\*k to Sleep*, was hilarious. I thought this book would follow

suit in the funny department, however the story line was weak and not as funny as I thought it was going to be. The illustrations are great though.

We have a lot of the books from the original series: If You Give a Mouse a Cookie, a Moose a Cupcake, and a Pig a Pancake so the continuous sequence style of this book I totally get. It is a very true to the style it parodies. However I wasn't that into where the story went in this book. The first few pages were pretty funny especially if you know the original books but after that it went too much on a tangent to me. Still the idea was still kind of cool to have an adult "children's" book anyway.

This book is funny and really parodies the other books very well. If you are looking for a funny read, this is a good book. I wouldn't spend the money on a hardcover, as you'll probably only read it once and then your done. Unless you plan on passing it along to your friends. Then a hardcover might last longer.

If your offended by swear words - this book is not for you. I bought it for my friend who is expecting. She laughed as I read it. Hopefully it will bring her a laugh or two when her daughter won't be quiet...

This book is hilarious, and a great addition to any collection. It is a GREAT conversation piece when guests come over, and everyone raves about it. Also, if you have kids (especially with red hair!) you can totally relate. Love this book!

Made a fun gift basket for a friend with this in it, along with a few others. If you're familiar with the series, it's funny immediately. I think I laughed the hardest at one of the others 'Go the F#%\* to Sleep' if you have to pick one. Very irreverent and perfect for new mommies.
