Customer Reviews

I have a degree in art and in architecture. I have always been an artist and photographer using different mediums. After retiring from architecture in 2009, I purchased Corel Painter 11 to try the digital medium for a creative outlet. Since then I have purchased many books and DVDs on using painter. Since purchasing Karen Sperling's Painting for Photographer vol. 1, 2 & 3, all my other books have been put on the back shelf. Her books are great inspiration for digital painting from photographs using Corel Painter. They cover everything from excellent art theory to step by step tutorials. They are easy to follow and understand and good for all Painter skill levels from beginner to advanced. At first I was intimidated by Corel Painter, but now with the help of her Painting for Photographers series, I have confidence and inspiration. Art has always been a hobby, but since I have had some success painting portraits from photographs, after many attempts, I have had requests for my work and paid well for it. I did not set out to make money doing this, but why not? I am now adding nature and landscapes to my work. Thank you Karen for your knowledge, inspiration and help using Corel Painter. I just ordered Painter 2017 based on your good review.

Love art and photography, but a little intimidated by the new digital world?-- This is the volume that can get you going.-- Easy to follow instructions from a nationally recognized digital artist. Karen Sperling will take you step by step, from beginner to wherever your talent wants to go. - All the little tricks and processes that make digital painting fun and rewarding!!

As with all of Karen's books this book is more than an A+. This is a beautiful book not only in images, but also in the simplistic yet thorough way Karen teaches how to turn photos into masterful pieces of art. She tells you just what you need without getting complicated to accomplish your goals whether you are wanting to make money with your digital artwork or you are doing it for yourself as a hobby or for gifts for friends and family. I love her style of teaching because anyone can learn from her be it novice or an accomplished artist. I have been an artist all my life and yet I have learned so much from all of Karen's books. Every time she puts out another book I want it! I know I will never be disappointed. I am always looking forward to see what she has new to offer. I mean, just look at

the covers of her books. They are gorgeous! That alone tells you there has to be something special inside her books. Thank you Karen for all the hard work you put into your teaching and books. And NO, I do not know Karen personally, but I feel like I do through her wonderful books! Anna

Volume 2 was just what I was looking for, So I ordered volume 3 and it was even better. If you want to learn Painter Karen's books are a great start.
